Sir,
Sub: - Strengthening of APSECM (AP State Energy Conservation Mission) - Deputation
of one Dy. Executive Engineer/Executive Engineer from AP Power
utilities to APSECM - Requested - Reg.
Ref: - G.O.Ms.No.8, Dtd.03.02.2014.

Andhra Pradesh State Energy Conservation Mission (APSECM), the state designated agency (SDA) of AP under Bureau of Energy Efficiency(BEE), MoP, GoI is vested with responsibility of co-ordinating and promoting various energy conservation and energy efficiency activities in the state covering Domestic, Municipal, Agricultural, Industrial, buildings sectors.

It is to submit that Sri R S Radhakrishna, Dy.EE who was looking after the ECBC, S&L programs has been relieved on 04.06.2021 FN on promotion as Executive Engineer and repatriated to APTRANSCO.

Energy Conservation Building Code (ECBC) is a mandatory regulation to encourage the transition of building sector to efficient use of energy. The building sector in India consumes over 30% total electricity consumed in the country annually and is second only to the Industrial sector as the largest emitter of Green House Gases. With nearly 70% of the buildings required by 2030 are yet to be built. Hence, there is a lot of potential in this area for energy savings and reduction in GHG with proper implementation and enforcement of ECBC regulations.

Standards & Labeling program is also a key program where a lot of awareness to be created to the consumers on star rated appliances.

In this connection, it is requested to issue instructions to the concerned authorities to arrange to depute one Deputy Executive Engineer/Executive Engineer from AP power utilities for effective implementation & enforcement of ECBC, S & L activities in the state duly counting against the vacant post as per G.O.Ms.No.8, Dtd.03.02.2014.

Yours faithfully,

Chief Executive Officer/APSECM
