- II. Lifting of raw coal from allocated mines, arranging transportation of raw coal up to washery, witnessing the Joint sample collection and testing of the samples at Mines by IIA/MCL.
- III. Beneficiation of the raw coal, Transportation of the beneficiated coal up to nearest railway siding and Stocking at railway siding, Placing sufficient indents daily & Liaisoning with SEC Railway for rake sanction and duly co-ordinate with transporter for placement of rakes, loading in to railway wagons, witnessing the Joint sample collection and testing of the samples while loading into rakes by APPDCL appointed IIA along with APPDCL transporting agency.
- IV. Handling of Rejects and Disposal of Rejects.

Details of Scope of Work:

I. Liaisoning with M/s MCL for obtaining Delivery orders.

APPDCL will authorize the successful bidder to draw the raw coal as per monthly Linkages allotted by Ministry of Coal / FSA to APPDCL/SDSTPS from coal fields of MCL. Bidder should

- i) Liaison with M/s MCL headquarters officials to release the raw coal Delivery Orders as per the payment made by APPDCL and follow up with various agencies viz., Coal Controller, Railways and coal fields of MCL for all works relating to the execution of linkage.
- ii) Monitor the loading of raw coal at the pit heads and communicate time to time to APPDCL for lodging any complaints/ issues with the respective authorities in case of any deficiency.

II. Lifting of raw coal & Transportation of raw coal up to washery and Joint Sampling:

- i. The successful tenderer shall take delivery of the raw coal as per FSA from coal companies on behalf of APPDCL as per sale order/delivery order and as per requirements of APPDCL based on linkage. The loading charges at collieries end will be borne by the coal companies as per the standard practice whereas unloading charges at CPP shall be borne by the successful tenderer. However, any additional charges/expenditure arising at mines/collieries end due to changes in standard operating procedures, guidelines or mechanisms relating to loading of road sale trucks shall also be borne by the successful tenderer.
- ii. The Successful Tenderer on behalf of APPDCL shall adhere to the schedule given by the coal companies for unloading the raw coal at CPP end shall follow-up with various agencies viz. Coal Control, Railway & Coal Fields for all works relating to the execution of linkage & monitoring loading of coal at Pit heads. The washery operator shall communicate time to time to APPDCL for lodging any complaints/ issues with the respective authorities in case of any deficiency.
- iii. Unloading of raw coal from the trucks at CPP.
- iv. Joint Sample collection and testing of ROM Coal: As per the Annexure-II.

III. Beneficiation of the raw coal, Transportation of the beneficiated coal up to nearest railway siding and Stocking at railway siding, Placing sufficient indents daily & Liasoning with SEC Railway for rake sanction and duly co-ordinate with transporter for placement of rakes, loading in to railway wagons, witnessing the Joint sample collection and testing of the samples while loading into rakes by APPDCL appointed IIA along with APPDCL transporting agency.

- i. The raw coal so received shall be beneficiated in CPP and the beneficiated coal should have the specified parameters as mentioned in the Clause No: 2.1
- ii. Surface transportation of beneficiated coal from washery to Railway siding point, unloading at the railway siding.
- iii. Indenting the rakes and Liasoning with South East Central Railway for rake sanction and coordination with transporter for placement of rakes shall be the responsibility of the washery operator.
- iv. Loading of the washed coal into rakes as per the Indian Railway rules shall be the responsibility of washery operator for onward transportation to Paradip port by APPDCL appointed Transporter only. The successful tenderer must ensure the absence of any foreign materials (eg.Stones, shale, oversize boulders, metallic debris etc.,) in the railway wagons before loading the washed coal, by duly coordinating with the transporter.
- v. The railway freight along with applicable GST on the actual weight for transportation of coal from washery siding to Load Port (Paradip Port) only shall be paid by APPDCL. The 50% of the additional railway freight due to under loading of wagons and all applicable charges/penalties (ENHC, FAUC, DCLA etc.,) excluding base freight (i.e freight on Chargeable weight) along with applicable GST levied by railways shall be to the account of successful bidder only. Fifty percent (50%) of the Penal Overloading (POL) charges levied by the Railways, excluding the base freight and applicable GST thereon, shall be recovered from the successful bidder.
- vi. Witnessing the Joint sample collection and testing of the samples from loaded wagons while loading into rakes by APPDCL appointed IIA along with APPDCL transporting agency as per the Protocol. The washery operator shall arrange infrastructure facilities for lighting and drawing of sample from top of the wagons and ensure necessary safety measures regarding overhead electric traction lines.

IV. HANDLING OF COAL REJECTS AND DISPOSAL

- i. It shall be the responsibility of the successful tenderer to properly dispose off all the coal rejects generated. Expenses so incurred shall be to the account of the successful tenderer.

- ii. Rejects generated shall be as per the Yield calculated based on Input ROM Coal quality. DO/Sale order wise reconciliation shall be calculated based on input raw coal quality parameters.
- iii. The tenderer shall quote the cost/value of disposal/sale of coal rejects per MT basis in the price bid. The reserve price of coal washery rejects is minimum at Rs.471.06/- per MT excluding GST.
- iv. Quarter-wise reconciliation shall be carried out jointly by the operator and APPDCL for calculating penalties on Yield.

2.1 Washed coal Parameters and % Yield:

The following are the washed coal parameters after beneficiation of the raw coal and from loaded wagons while loading into rakes, samples for the washed coal shall be collected by IIA appointed by APPDCL. Joint sampling and witnessing of sample testing shall be done by IIA along with Washery operator, APPDCL appointed transporter.

Sl.No.	Description	Range
1	GCV (Kcal / kg)	> 4200 (As received basis)
2	Ash % (At 60% RH and 40 Deg C)	Not exceeding 34.0 %
3	Total Moisture %	9.5% (From Nov to June)
		11.5% (From July to Oct)
4	Yield of Beneficiated coal (minimum)	70.4% for G-14 grade coal.
5	Size	(-) 50 mm
6	Fines 0 – 2 mm	15%

Yield of Beneficiated Coal (Minimum):- The Bidder shall liaison with MCL and shall obtain delivery orders for declared grade (G-14 Grade). In case coal dispatched from MCL are of different grades than the declared grade based on Independent Inspection Agency (IIA) results measured at mines end, the washery should supply the washed coal quantities as per the % yield of Input raw coal grade as mentioned below:

- For G-10 grade-79.7%
- For G-11 grade-76.6%
- For G-12 grade-73.5%
- For G-13 grade-73.5%
- For G-14 grade-70.4%
- For G-15 grade-70.4%
- For G-16 grade-67.3%

It shall be the responsibility of the washery operator to ensure that the grade of coal is in line with the grade for which APPDCL has paid advance amounts for sale orders.

2.2 Raw coal Transportation & Washed coal Transportation:

- i. After award of the Contract, lead distances from the mines at IB valley up to Washery end will be measured jointly.
- ii. After award of the Contract, lead distances from the washery up to railway siding will be measured jointly.
- iii. In case of any variation in lead distance from mines to washeries is within +/- 1.0 km, then no revision of rates shall be considered.
- iv. For any change in lead distance beyond one KM, pro rata increase/decrease in rate shall be considered.
- v. However, the increase in lead distance will be considered based on the highest of lead distance quoted and jointly measured lead distance. Similarly, the decrease in lead distance will be considered based on the lowest of lead distance quoted and jointly measured lead distance.
- vi. In case any new mine / coal stockyard, the lead distance shall be measured and the nearest distance measured in the above mentioned mines / coal stockyard will be applicable as per the relevant clause.
- vii. Raw coal Transportation from mines to washery and Surface Transportation charges of washed coal up to the nearest railway siding shall be paid to the contractor.
- viii. The Bidders shall submit the details of Distance from Mines to washery and Rate/MT for a minimum of 2 mines in price bid Annexure-I for IB valley area. The average transportation cost per MT from mines to washery of 2 mines shall be considered & included in the evaluation of price bid (Annexure-I).
- ix. The Bidders shall submit the details of Distance from washery to Railway siding and Rate per MT in price bid Annexure-I for IB valley Area. The surface transportation charges from washery to railway siding shall also be considered in the evaluation of the price bid (Annexure-I).
- x. Further, the bidder shall furnish the Railway Freight per MT as per FOIS for transportation of washed coal from railway siding of the washery to Paradip Port. These charges shall also be included in the evaluation of price bid (Annexure-I).

Diesel Escalation:

The base price of Diesel at nearest retail outlet applicable for MCL, IB valley area as on Tender date, shall be considered for making payments.

Retail Diesel Price on the tender date at IB valley area is Rs.100.74 Per Litre.

Raw coal transportation from mines to washery and washed coal transportation to railway siding: The escalation in respect of awarded rates for transportation shall be calculated using the following formula as and when prices of diesel are changed:

Increase/decrease in quoted rates = $[(D/K) \times (1.05)/C] \times R$

Where,

D= The lead distance factor corresponding to the relevant lead distance slab shall be considered; K=kilometer per litre as fixed below.

R= Increase (+) or decrease (-) in price of diesel (in IB valley area) of MCL from the base rate on the date on which this tender is floated i.e., Rs.100.74 Per litre.

C= loading capacity of the truck =16 tonne.

Lead distance slab	Constants			Constant Diesel Factor
	D	K	C	$[(D/K) * (1.05)/C]$
0-5.50	5.5	1.43	16.00	0.2524
5.51 -10.50	15.5	1.43	16.00	0.7113
10.51 -15.50	25.50	1.47	16.00	1.1384
15.51 - 20.50	35.50	1.54	16.00	1.5128
20.51 - 25.50	45.50	2.00	16.00	1.4930

The above formulas shall be applicable for Raw coal Transportation from M/s MCL mines to washery and beneficiated coal transportation from washery to Railway siding if the Diesel price variation is beyond (+) or (-) 2% of monthly average and no Diesel escalation shall be allowed for the remaining works.

2.3 Loading charges into rakes:

The bidder shall quote loading charges in to rakes at the railway siding in Rate/MT.

The Loading Charges shall be included in the evaluation of price bid.

2.4 Penalties on Coal Parameters:

I. % Total Moisture(As Received Basis)

Penalty for increase in the total moisture of beneficiated coal over the agreed limit on the result obtained during joint sampling and testing at loading end of the washery i.e. during the loading in railway rakes at washery railway siding on monthly weighted average basis.

The successful tenderer/Company shall pay penalty at the rate of 1.25 % of beneficiation charges for every 0.1% increase in the total moisture content of Beneficiated Coal as sampled and measured at the railway siding during loading into railway rakes for the total moisture of above 9.5% during the months from November to June and above 11.5 % during the month of July to October (or the adjusted value) up to 12%.

In addition to the above penalty, if the total moisture exceeds 12%, for every 0.1% increase in the value of the total moisture over and above 12% up to 15%, a 0.1% pro-rata reduction in the weight of the washed coal received at washery railway siding during loading into railway rakes shall be effected. For the purpose of such pro-rata reduction, the landed cost of coal inclusive of raw coal coat incurred upto the washery railway siding shall be taken into account.

However, if the total moisture exceeds 15%, no beneficiation charges shall be paid or if paid already, the same shall be deducted from the subsequent bills.

Note: If the Total moisture exceeds more than 15 % on multiple occasions, APPDCL shall have the right to terminate the total contract at any time or in part and award it to other agencies.

II. % Ash

Penalty for increase in the percentage of ash content in the beneficiated coal over the agreed limit on the result obtained during joint sampling and testing at washery end railway siding during loading into railway rakes on a monthly weighted average basis.

The successful tenderer/Company shall pay penalty at the rate of 1.5 % of beneficiation charges of beneficiated coal received at washery railway siding during loading into railway rakes for every 0.1% increase in the ash content of beneficiated Coal as sampled and measured at washery railway siding during loading into railway rakes for the ash content of above 34.0% and up to a cut-off limit of 34.5%. If the Ash content exceeds 34.5%, the beneficiation charges will not be paid or if paid already the same shall be deducted from the subsequent bills.

Note: If the Total Ash content exceeds 34.5 % on multiple occasions, APPDCL shall have the right to terminate the Total contract at any time or in part and award it to other agencies.

III. Penalties on Lower Yield

If the quantity of ROM/raw coal lifted from MCL mines during a particular quarter including quantity of ROM/raw coal left in the bunker/yard of CPP at the end of the previous quarter is found to be higher than the quantity utilized for producing beneficiated coal, including the quantity of ROM coal left in the bunker/yard, then the cost for that quantity of ROM/raw coal will be recovered from the firm/bidder.

i.e.

If $\{c - ((e / \% \text{ Yield}) + d)\}$ is positive, the cost for that ROM/raw coal will be recovered from the firm.

Where,

$c = \{\text{Quantity of ROM/raw coal lifted from MCL mines during a particular quarter} + \text{Quantity of ROM/raw coal left in the bunker/yard of CPP at the end of the previous quarter}\}$

$d = \text{Quantity of ROM/raw coal left in the bunker/yard of CPP at the end of the present quarter.}$

$e = \text{Beneficiated coal produced during the quarter.}$

Yield of Beneficiated Coal (Minimum):-

The washery shall supply the washed coal quantities as per the % yield of Input Raw Coal grade as mentioned below:

For G-10 grade-79.7%, For G-11 grade-76.6%

For G-12 grade-73.5%, For G-13 grade-73.5%

For G-14 grade-70.4% For G-15 grade-70.4%

For G-16 grade-67.3%

The washery operator shall carryout reconciliation in every quarter along with APPDCL. Washery operator shall furnish the following details:

- i. Details of DO/Sale order qty and Date-wise lifting quantities
- ii. Input coal quality results certified by Independent Inspection Agency (IIA) as per the above date wise lifting quantities
- iii. Yield calculated on Input coal and lifted quantity details.
- iv. Washed coal produced and loaded into rakes against the above DO's – RR wise
- v. Washed coal analysis of rake-wise
- vi. Based on the above details, the lesser yield if any shall be considered for levying penalty.
- vii. Average cost of ROM coal for the entire DO shall be the price to be considered

IV. Penalties on Less Drawl of Coal from MCL

The successful tenderer shall lift total raw coal from MCL mines within the stipulated time period in the delivery orders/sale orders issued by the MCL.

If the contractor fails to lift the entire quantity or partial quantity a penalty of Rs. 30/-per MT shall be imposed on the unlifted quantity.

V. Penalties on Delay in Loading of washed coal in to rakes

The Successful tenderer shall draw raw coal from MCL, beneficiate and transport washed coal to siding on continuous basis after receipt of delivery order. The firm shall draw the entire DO quantity, wash in the washery and load into the rakes at railway siding within 60 days from the date of the delivery order/sale order.

Penalty @1.0% per week of delay on value of beneficiation charges shall be levied for the short supplied quantity of washed coal after expiry of 60 days.

VI. Penalties due to improper loading of rakes (Railway Freight):

The railway freight along with applicable GST on the actual weight for transportation of coal from washery siding to Load Port (Paradip Port) only shall be paid by APPDCL. The 50% of the additional railway freight due to under loading of wagons and all applicable charges/penalties (ENHC, FAUC, DCLA etc.,) excluding base freight (i.e freight on Chargeable weight) along with applicable GST levied by railways shall be to the account of successful bidder only. Fifty percent (50%) of the Penal Overloading (POL) charges levied by the Railways, excluding the base freight and applicable GST thereon, shall be recovered from the successful bidder.

2.5. Quality Monitoring of Washed coal

a. Joint sampling and Analysis for Washed coal:

APPDCL shall be appoint an Independent Inspection Agency (IIA) for sample collection and testing of coal samples. The IIA, Transporter and Washery operator shall collect the samples as per the Standards BIS/IS. Samples shall be

collected from loaded wagons while loading into rakes at the washery siding area duly following procedure mentioned in IS 436(Part-I)

The Independent Inspection Agency (IIA) shall prepare the samples for testing of Total Moisture outside the washeries and in the vicinity of IB valley, in the presence of washery operator & transporter and the testing for the other values shall be at IIA Laboratory. The prepared samples shall be handed over to all the agencies and one sample shall be kept as Referral Sample with lock and key under joint custody of Independent Inspection Agency (IIA), APPDCL & washery operator. The witnessing of Testing of Total Moisture shall be the responsibility of washery operator, incase non witnessing of the sample, the results published by Independent Inspection Agency (IIA) shall be final and no correspondence shall be entertained in this matter.

The payment of the beneficiation charges shall be based on the assessment of quantity and quality of beneficiated coal during the month based on the result obtained during the joint sampling and testing at the loading end i.e., at washery railway siding from loaded wagons while loading into rakes.

However, if any objection is raised by the washery operator / transport operator /APPDCL, the referral samples shall be send to an independent Govt. agency/PSUs as appointed by APPDCL and the charges thereon incurred shall be recovered from the bills of the party who raised the objection.

However, the challenges shall be raised within 15 days from the date of results published by IIA and the referee sample shall be preserved for a period of 30 days from the date of results published by IIA.

- b.** Further, the successful tenderer shall operate and maintain the On-Line monitoring Systems if any, and APPDCL shall be entitled to use results from the On-line Monitoring Systems to Monitor and Compute the ash percentage (equilibrated) and the total moisture content of the Beneficiated coal being dispatched from the Primary Beneficiation Plant to washery railway siding during loading into railway rakes. The successful tenderer shall permit APPDCL to witness testing of the On-line Monitoring Systems (including without Limitation Calibration Testing) on reasonable notice from APPDCL. If On-line System is not available, manual joint sampling as per ISI Standard shall be adopted.
- c.** Facilities for sample collection shall be provided by the successful tenderer at all relevant points where quality parameters are to be determined for raw coal, Beneficiated Coal being loaded into wagons. The provision of required infrastructure for sampling and testing as per BIS shall be the responsibility of the successful tenderer.
- d.** The successful tenderer shall ensure that the GCV, % Ash and % Total moisture of the Beneficiated Coal received at the washery railway siding from

loaded wagons while loading into rakes are within the maximum permissible limits.

- e. The size of Beneficiated coal shall not exceed 50 mm. The Beneficiated coal shall be free from tramp iron etc. and shall not exhibit a temperature in excess of 50°C on loading. The coal fines in the Beneficiated coal shall be at such a level that, APPDCL has no difficulties in handling the Beneficiated coal or discharging the same from conveyor/trucks.
- f. The successful bidder shall follow the protocols given by APPDCL for smooth testing of coal samples at all points.

2.6 Methodology for implementation of Penalties:

- i. DO wise quantity, quality parameters shall be considered for levying the penalty on Yield, Lesser drawl of ROM coal from Mines.
- ii. Washed coal Loading details RR wise along with quality and quantity shall be considered for levying the penalty of %TM, % Ash, Delay in Loading of washed coal in to Rakes at Washery Siding.
- iii. In case of any contradictions arises for methodology of implementation of penalties in due course, it shall be at the discretion of APPDCL for imposing the penalties which is beneficial to APPDCL.

2.7 Payment Method:

The system of payment of Raw coal transportation charges from Mines to washery, Beneficiation Charges, surface transportation up to washery railway siding and loading into railway rakes for the successful tenderer/Company shall be as follows. The billing shall be based on monthly basis and the following shall be ensured while submitting the bills.

a. Transportation of raw coal from M/s MCL Mines to Washery:

90% of bills/invoices along with full applicable taxes towards Transportation of raw coal from M/s MCL Mines to washery shall be paid for the loaded quantities of the beneficiated coal (in terms of raw coal i.e., with yield arrived) received at washery end railway siding during loading into railway rakes duly affecting penalties leviable as per the quality of the coal received. These bills shall be accompanied by Daily Notes and statement showing R/R No., Invoice No., Wagon No. and the net weight along with consolidated statement of ROM coal quantity received for the billing period etc. as the case may be.

b. Beneficiation charges:

90% of bills/invoices along with full applicable taxes towards beneficiation charges shall be paid for the quantities of the beneficiated coal loaded in to railway wagons at washery railway siding duly affecting penalties leviable as per the quality of the coal received. These bills shall be accompanied by Daily Notes and statement showing R/R No., Invoice No., Wagon No. and the net weight along with consolidated statement of ROM coal quantity received for the billing period etc. as

the case may be.

c. Surface Transportation charges up to railway siding and loading into railway wagons:

90% of the surface transportation and loading into railway rakes shall be paid along with full applicable taxes for the quantity of beneficiated coal loaded in to railway rakes at washery railway siding based on the RR quantity.

All the bills shall be submitted along with Analysis reports of IIA for the washed coal parameters. Bills shall be processed with

- i. Verification of the quality results of GCV, % moisture and % ash of the Beneficiated Coal as per the IIA report.
- ii. Recovery of cost of excess usage of ROM/raw coal because of lower yield coal, arrived on the basis of weighted average cost.
- iii. Reconciliation of quantity and quality shall be carried out periodically. The monthly payments will be released within 30 days after receipt of the monthly invoices; however, the payment of the last month of any quarter shall be released only after joint reconciliation of quantity and quality by the contractor and SDSTPS for that quarter.
- iv. The Railway freight on actual weight inclusive of all taxes and duties only for the distance from railway siding to respective destination (Pardip Port) shall be paid by APPDCL directly to the Railways as per the actual at the time of supply during the contract period.

d. Balance 10% payment shall be released for every 3 months as admissible after taking into account the following: -

- i. Deductions / recoveries not covered under clause No. 2.4 Penalties above and quality results particularly moisture, and ash percentage of the beneficiated coal at the washery railway siding during loading into railway rakes.
- ii. Recovery of cost of excess usage of ROM/ raw coal because of lower yield coal, arrived on the basis of weighted average cost, computed as per clause No. 2.4(III) i.e. Penalties.

However, if the deduction is more than the amount of 10% balance payment, the same shall be realized from the next bills.

e. The successful tenderer/Company shall submit the bills for the specified period i.e. 1st to 30th for every month along with GST proofs. However the proofs of GST paid shall be submitted in the subsequent month for processing of next month bills.

f. APPDCL shall release payment of the 90% bill along with full applicable taxes as admissible within thirty days from the date of receipt of bills (complete in all respects) at SDSTPS. The successful tenderer/ Company shall account for necessary deductions in the 90% bill that may be on account of penalties towards quality (Total Moisture %, Ash %) and lifting of raw coal.

- g.** APPDCL shall issue a Purchase order and Purchase Order shall be for the following works:
- I.** Liaisoning with M/s MCL for obtaining Delivery Orders for **2.00** Million MT per annum from M/s MCL on account of APPDCL from different mines as per the Delivery Orders issued by M/s MCL.
 - II.** Lifting of raw coal from allocated mines, arranging transportation of raw coal up to washery, witnessing the Joint sample collection and testing of the samples at Mines by IIA/MCL
 - III.** Beneficiation of the raw coal, Transportation of the beneficiated coal up to nearest railway siding and Stocking at railway siding, Liaisoning with SEC Railway, loading in to railway wagons, witnessing the Joint sample collection and testing of the samples while loading into rakes by APPDCL appointed IIA along with APPDCL transporting agency.
 - IV.** Handling of Rejects and Disposal of Rejects: Quantity of rejects shall be considered from each DO with all the details of Yield calculation. The same amount shall be considered for Billing.
- h.** While processing the bills, APPDCL shall finalize the amount of penalty, and any other charges/deductions as per the relevant clauses of the Agreement which shall be deducted from the bills and details shall be provided to the Company while releasing the payment.
- i.** All payments to the successful tenderer/Company shall be released by APPDCL through RTGS/Online payment.
- j.** Income Tax and any other statutory levies if applicable as on date, shall be deducted from the above bills.
- k.** APPDCL without any prejudice has the right to recover the excess payments made in respect of prices within state during course of execution of contract.
- l.** Beneficiation Charges Invoices shall be raised by Washery operator
- m.** Washery coal rejects sale Invoices shall be issued by APPDCL.

3.0 PRE-QUALIFICATION BID REQUIREMENTS**(i) QUALIFYING REQUIREMENT FOR THE BIDDERS:**

- (a) The Bidder can be an Individual / Limited Liability Partnership (LLP) / Partnership firm / Company or Consortium / Joint Venture of maximum three (03) members.
- (b) The Joint Venture/Consortium must be the one registered as “**Unlimited Liability Partnership Firm**” in India with names of all the Member(s)/Partner(s) find place in the Registrar of Firms. If not registered by the time of bid submission, they all must give a written undertaking as Joint Venture/Consortium upto 3 Member(s)/Partner(s) all from Indian Nationality (or) from Abroad (In case of JV/Consortium with foreign member (s), the lead member has to be an Indian firm with a minimum share of 51% and also the total share of Foreign Member(s)/Partner(s) shall not exceed 25%) and that they shall cause register their unlimited liability partnership within three (03) months after concluding Contract Agreement/LOI and must furnish under the Indian Partnership Act, with the Registrar of Firms. The terms & conditions of JV/Consortium are as per the Annexure-VIII.
- ii) The Bidder must have an established washery at M/s MCL IB valley area having spare capacity of minimum **2.00** Million Metric tons or more per annum in terms of raw coal as on the original scheduled date of bid opening.
- iii) The bidder should have his Own/leased/Contracted washery having running agreement.
- iv) The Bidder proposed washery should have experience of 2 (Two) MMT of raw coal lifting & washing in last 24 months, as on the date of tender published. (Details of washery mentioned in schedule-I). Further the proposed washery shall be operationalized and bidder shall submit:
- 1)Any work order or contract of similar jobs awarded by any government/reputed power plants either executed or under execution.
 - 2)A Certificate for receipt of washed coal from end user as documentary evidence towards operationalization of proposed washery.

Accordingly the bidder shall submit schedule-I A.

- v) Bidder should have his Own/MCL allotted siding having coal loading permission by appropriate authority for the purpose of loading and dispatch of washed coal by rail mode. The siding must have an associated and operational in-motion weighbridge located at the loading end, with a valid calibration certificate. The bidder shall submit necessary documents in establishing the above i.e. certification and that it is operational.

- vi) The bidder should have Positive Net Worth as per the latest audited financial Statement as on 31.03.2026. Statutory auditors certified certificate shall be enclosed.
- vii) The un-utilized Letter of Credit for fund based and non-fund based limits with cash and bank balances including fixed deposits of the Bidder as on a date not earlier than 15 days prior to the date of bid opening, duly certified by its Bankers, should not be less than INR 20 Crore (Indian Rupees Twenty Crore Only). In case certificates from more than one bank are submitted, the Certified un-utilised limits shall be of the same date from all such banks.
- viii) The bidder should submit the following documents/washery certificates i.e. CFE (Consent for establishment), Factory License, PCB Certificate, Mining license, GST, PAN etc. All the documents shall be having validity as on the date of the tender.
- ix) The average annual financial turnover during the last three years (i.e. FY-2023-24, FY 2024-25 & FY 2025-26) should be not less than Rs 20.00 Cr.

Chief General Manager/APPDCL

4.0 GENERAL, FINANCIAL TERMS & CONDITIONS

The Location of the CPP must be in the Vicinity of M/s. Mahanadi Coal Fields Limited, IB valley area, Odisha as near to the Mines and to the Rail head as possible. The bidder must be able to transport the washed coal on his own from Washery to railway siding.

- a. **Quantity to be handled:** The estimated quantity of coal to be handled is **2.00** Million MT per Annum. The estimated quantity is indicative only and the total quantity may vary based on the coal supply from M/s MCL. APPDCL does not guarantee the quantities to be handled due to either changes in the quantities or other operational reasons. Payment shall be based on the actual quantities as per the RRs i.e., coal loaded at washery end railway siding. The monthly scheduled quantities will be intimated to the successful tenderer by APPDCL from time to time.
- b. **Contract Period:** The contract period is generally for **two years (24 Months)** from the date of commencement of work. However the entire contract or part of the contract may be terminated at any time before the end of the contract at the discretion of APPDCL without any liabilities whatsoever.
- c. **Contract Price:**
 The tender value excludes cost of raw coal, Railway freight from washery Railway siding to Paradip. The cost of raw coal will be paid by APPDCL directly to MCL.
- i. The Contract price shall be deemed to include and cover all the operations/ works mentioned in the tender documents.
 - ii. The rate is **FIRM** and exclusive of all taxes, levies, and statutory charges as applicable and GST. GST, as applicable shall be paid against submission of documentary evidence. Any variation in GST, will be paid on furnishing documentary evidence. (relevant Government notification).
 - iii. The quoted rate should be in Indian rupees.
 - iv. It is the responsibility of the bidder to acquaint with the various levies and charges to be paid to different authorities for the movement of coal from M/s MCL mines to washery and surface transportation up to washery railway loading point, loading into railway wagons excluding of GST as applicable.
 - v. The contract price shall be **FIRM** till completion of the contract period and no variation will be admitted on any account.
 - vi. The contract price will be paid in Indian Rupees as quoted by the bidder.
 - vii. Any other charges/payments for any incidental work arising over and above during the period of contract shall not be entertained.
 - viii. The bidders must have their own information in respect of washability characteristics of G11-G15 grade ROM coal that would be normally supplied on monthly weighted average basis to the washery as per monthly linkages.

- d. The bidder must be able to transport the raw coal on his own from the MCL mines to Washery. However the tenderer will be responsible to execute the entire work of lifting of raw coal, transportation of raw coal from mines to washery, washing the coal and surface transportation up to railway siding, loading in to railway rakes.
- e. Tenders received from those not having the requisite experience (as per **Clause 3.0**) shall not be considered.
- f. Normally the tenders should not differ from the terms and conditions and technical specification incorporated in the tender documents of Andhra Pradesh Power Development Company Limited for this scope of work. In case of any deviations the same should be specified in schedule-VII.
- g. The Pre-qualification bid will be opened first to check whether qualification, experience and other requirements are adequate for opening of Price Bid (Part-II). Only those tenders which contain the full information and which comply with the requirements regarding technical and financial qualifications, experience and equipment will be considered. Notwithstanding anything stated above, APPDCL reserves the right to assess the tenderer's capacity to perform the contract, should the circumstances warrant such assessment in the overall interest of the APPDCL. In this regard the decision of the Company is final.

4.1 VALIDITY OF TENDER: The tender should be kept valid for **120 days** from the date of Opening of tenders.

4.2 The tenderer must upload the copies of Income Tax Returns acknowledgement slips for the years ending March 31st of 2023, 2024 , 2025 and copy of PAN card along with tender. 4.5 SECURITY DEPOSIT:

The total contract value will be calculated based upon final rate derived for beneficiation charges, loading charges into railway wagons and other charges if any and also considering the Rate/MT offered by the bidder for raw coal transportation and washed coal transportation.

The successful tenderer shall furnish Security Deposit equivalent to 5% of the total contract value, within 15 days from the date of issue of L.O.I/P.O, out of which,

- i) 5% (Five percent) of total contract value is to be furnished in the form of Bank Guarantee issued by a Nationalized / Schedule Bank valid for a period of Thirty months with a claim period of 6 months (or) in the form of Insurance Surety Bonds issued as per the IRDAI guide lines thereafter for proper fulfilment of contract. The S.D will not carry any interest. The successful tenderer shall forth-with (upon intimation of acceptance of his tender) attend the office of Chief General Manager/APPDCL and sign an agreement in the proper departmental form for proper fulfilment of the contract.
- ii) Failure to submit Security Deposit and additional deposits as defined above shall entail forfeiture of EMD. The S.D will be refunded at the end of contract only if the

contract is completed to the APPDCL's satisfaction and on issue of a certificate by the concerned officer.

iii) The security deposits will be returned after fulfilling all the contractual obligations.

4.6 BG Towards Coal Cost: Further, the successful tenderer will be required to submit another Bank Guarantee from any Nationalized/Scheduled Bank in India in favour of APPDCL equivalent to the cost of Ten days raw coal (including taxes, duties, Cess, royalty etc.) which may be called as "Bank Guarantee towards cost of coal" with validity period of Thirty months with a claim period of 6 months thereafter. This shall be retained by APPDCL throughout the business period i.e. up to 6 months after expiry/ termination of the Agreement whichever is applicable, as security towards cost of coal which will be in possession of the successful tenderer. Any claim on account of shortage/claim on the quality and quantity of the coal would be recoverable from this bank guarantee if they were not settled through the Bills raised during operation. At present, the raw coal cost is Rs.1381/- per MT.

The Bank guarantee will be returned after fulfilling all the contractual obligations.

4.7 PRICE BID: The bidder shall quote basic prices, applicable taxes if any, Goods Service Tax and applicable GST rates separately.

4.8 INSPECTION: The accredited representative of the APPDCL shall have access to the Successful tenderers operations at any time during working hours for purpose of inspection of the work. The Successful tenderer shall provide necessary arrangement for such inspection.

4.9 SUBLETTING OF CONTRACT: No part of the contract shall be sublet without written permission from APPDCL nor shall transfer be made by Power of authority to others for receiving payment on the Successful tenderer's behalf.

4.10 SPLITTING OF CONTRACT: The tenders may be split up and given to more than one Successful tenderer and APPDCL reserves the right for such splitting of the contract.

4.11 JURISDICTION: If any disputes or differences arising out of or touching the contract against this specification shall be decided only by the Courts or Tribunals situated in Amaravati/Vijayawada cities irrespective of place of signing agreement. No suit or other legal proceedings shall be instituted elsewhere.

4.12 FORCE MAJEURE: The Successful tenderer will not be liable for delay for failing to handle and movement of the material for reasons of "Force Majeure" such as acts of God, acts of public enemy, acts of Government, fires, floods, strikes, lockouts etc. The Successful tenderer shall within 10 days from the beginning of such delay, notify APPDCL in writing the cause of delay. APPDCL shall verify and grant such extension of time as facts justify.

No price variation shall be allowed during the period of force majeure and penalty would not be levied for this period.

- 4.13 INSURANCE:** Total raw coal and washed coal shall be insured from M/s MCL mines to loading into railway rakes at washery end railway siding. The payment of the insurance is in the scope of the contractor
- 4.14 DEDUCTION OF INCOME TAX AT SOURCE:** Income Tax will be deducted at source from the bills of the Successful tenderer as per the provisions of the Income Tax Act as and when payments are effected.
- 4.15 Goods and Service Tax (GST):** In addition to the Income Tax acknowledgment slips, the tenderer shall enclose GST registration certificate, as mentioned in the PQB **Clause: 3.0** indicating financial soundness of the tenderer.

Annexure-VIIITerms & Conditions of Joint Venture/Consortium**(I) DEFINITIONS****JOINT VENTURE**

“The expression ‘joint venture’ connotes a legal entity in the nature of a partnership engaged in the joint undertaking of a particular transaction for mutual profit or an association of persons or companies jointly undertaking some commercial enterprise wherein all contribute assets and share risks.”

It can be seen that a joint venture is a partnership between two or more persons to take up a common enterprise. The ‘joint venture’ involves viz., (1) contribution by the parties of money, effort, knowledge and other assets to common undertaking; (2) joint property interests in the subject matter of the venture; (3) right of mutual control of management of the enterprise; (4) Role in Execution of the Project; and (5) Share in Profits. These aspects would be agreed to among the Joint Venture Partners.

CONSORTIUM

A consortium is formed by an agreement or MoU, which delineates the rights and obligations of each member. A consortium is defined as a group of companies participating for mutual benefit. Companies in a consortium co-operate with one another, often sharing resources as needed. A consortium allows the companies to conduct operations that they would not be able to do individually. It is important to note, however, that a consortium is not a merger and the companies remain independent.

- (a) Guidelines for participation of Joint venture firms**
